

His child

Will you help them to get a head start ?

"No one ever became poor from giving."

- Anne Frank

A home where "His child" can get a head start :

We are His Family, a community of concerned women reaching out to the marginalised children . Of the many homes that are currently in need of financial support, we are focusing our attention firstly on...

The Peace Education Centre, Imbi, Kuala Lumpur (also known as T-PEC)

T-PEC is a NGO that provides free education, food and accommodation to presently 30 refugee children ranging in age from 4 to 17 years old , most of whom come from a hill tribe in the Chin State of Myanmar.

- 70% of the children are fatherless
- There isn't any financial help from UNCHR
- Donations needed to meet cost of feeding, housing, medical bills and school supplies (to aid dedicated volunteer teachers providing education from nursery to secondary school levels).
- The centre provides a safe environment protecting the children from the preying eyes of human traffickers
